DIRECTORATE**

**Network Access Control and  
Continuous Monitoring Standards**

**JESSICA FITZGERALD-MCKAY  
NSA IAD MITIGATIONS GROUP**

**AUGUST 2012**

# GOALS

- Understand vision for endpoint compliance reports and continuous monitoring of endpoint health status
- Understand what standards already exist to achieve this vision
- Understand what new standards need to be created for this vision to become reality

# COMPLIANCE AND HEALTH TESTING TODAY

- External proprietary scanners
- Hands-on remediation
- Uncoordinated intrusion detection
- No agreement on schema
- No agreement on protocols

# WHY USE STANDARDS?

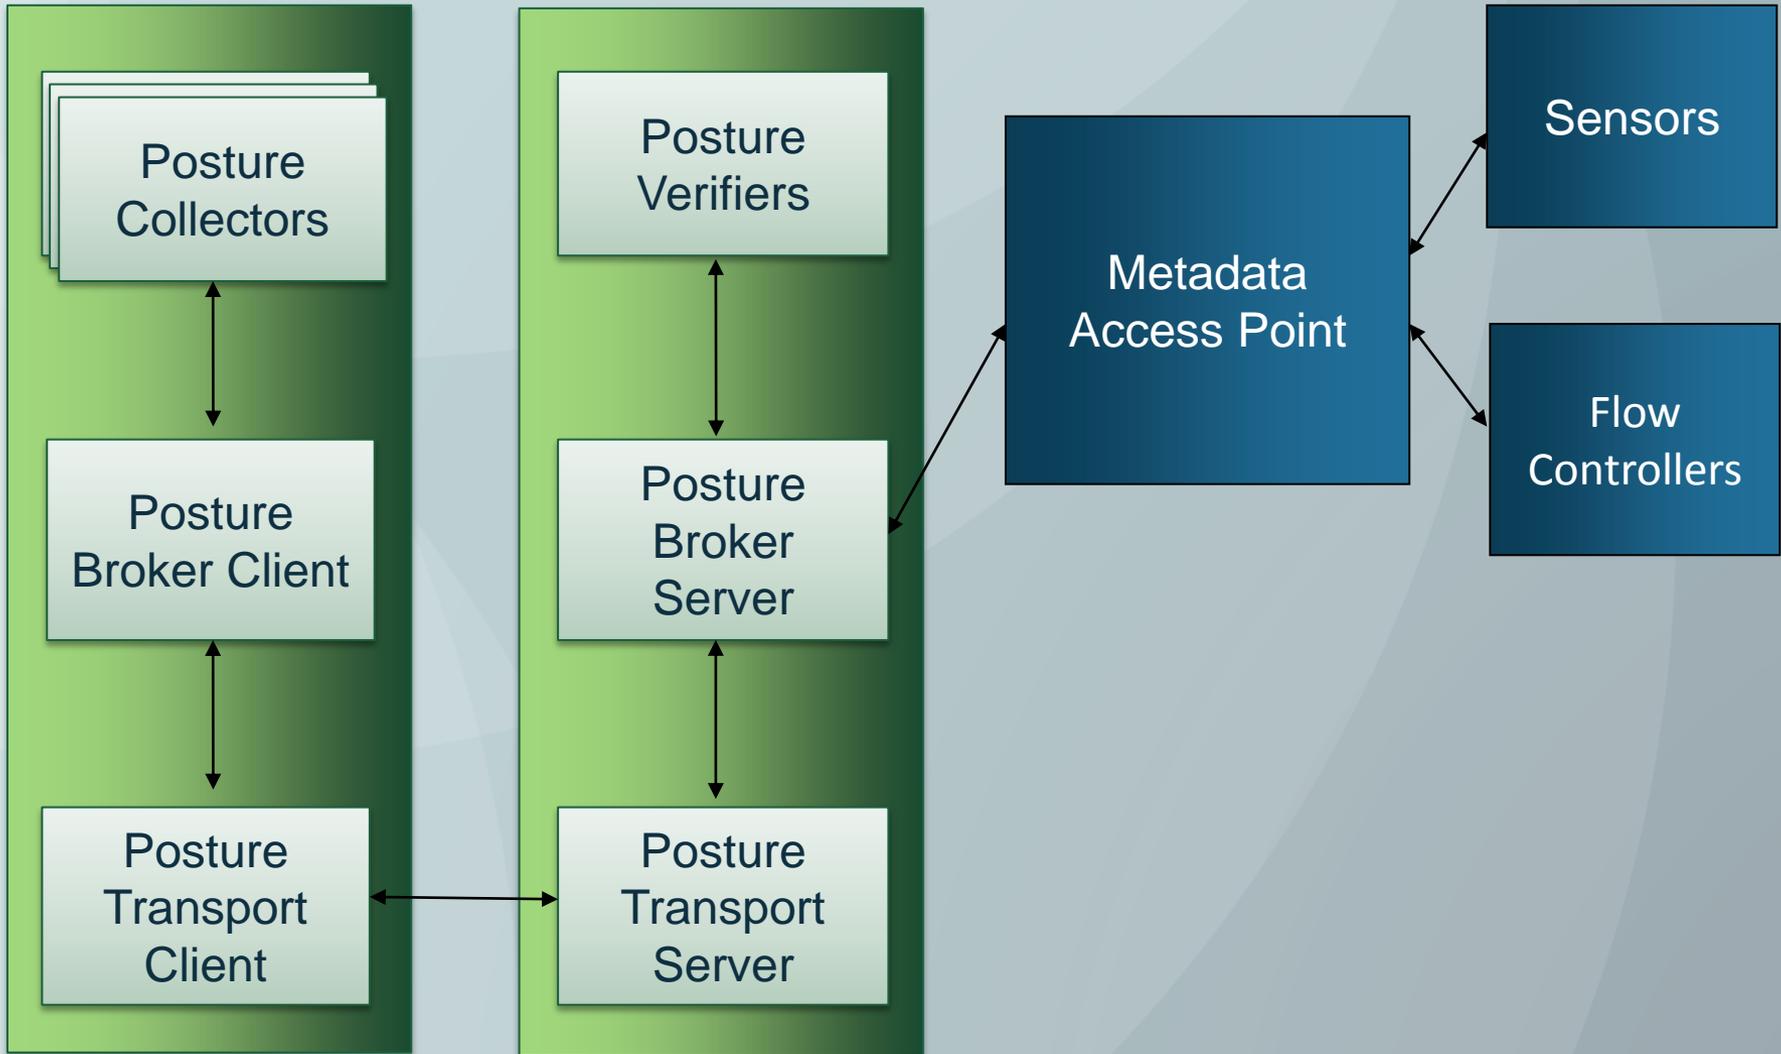

- Interoperability
- Avoiding vendor lock-in
- Security

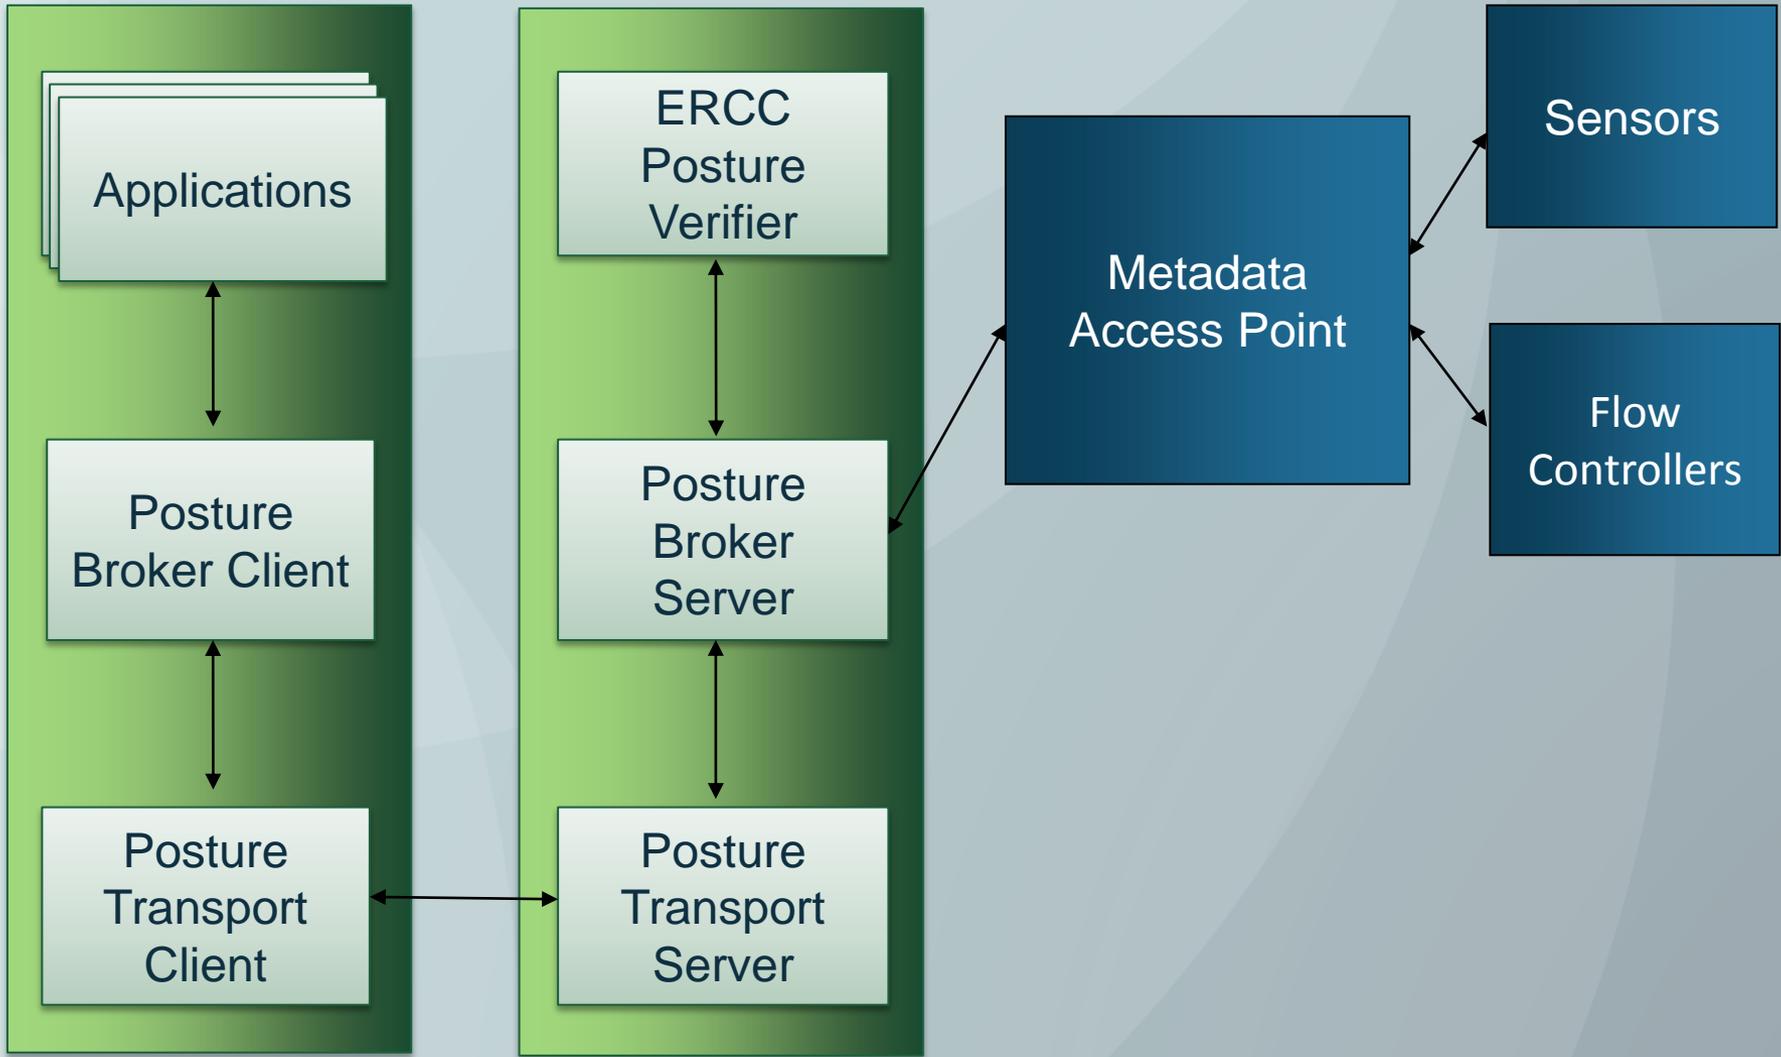

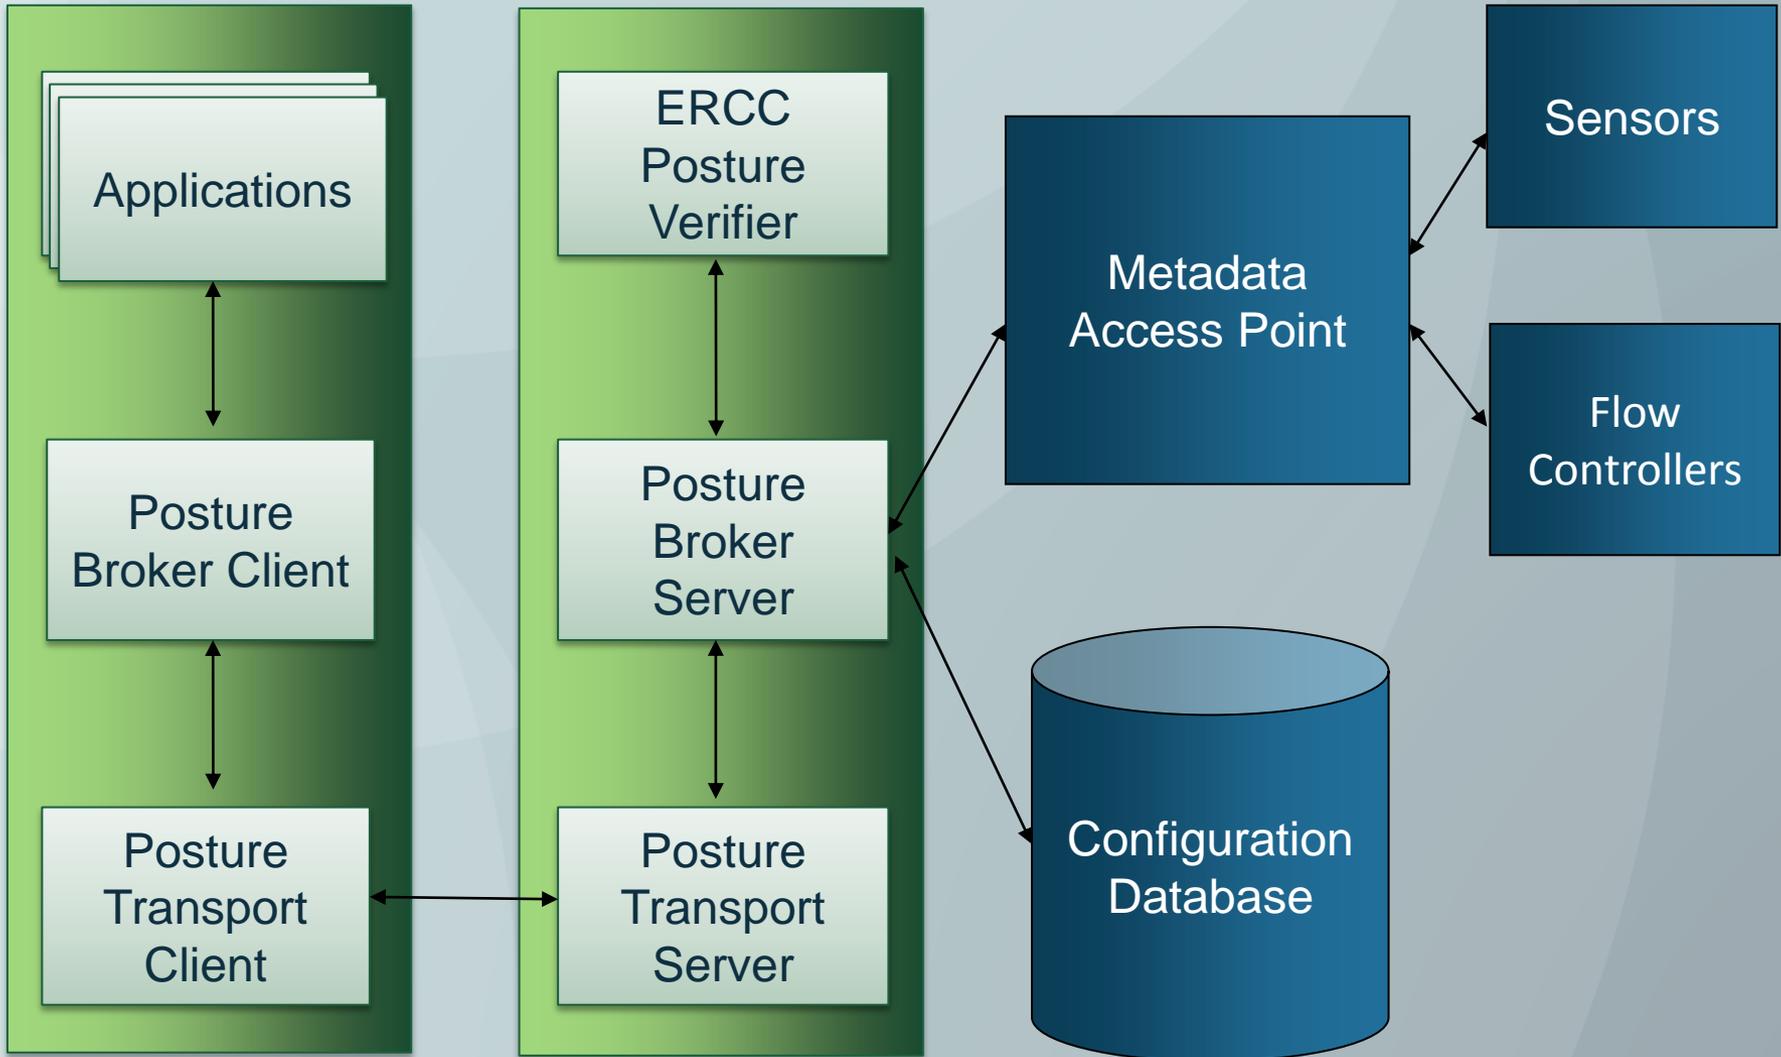

# THE NETWORK OF THE FUTURE!

- Regular, secure, automated compliance checking
- Continuous monitoring of all devices
- Automated remediation of non-compliant or unhealthy devices

# CALL TO ACTION

- We want to hear what your network needs!
- We need to have a consistent message to vendors!

Contact Jessica Fitzgerald-McKay ([jmfitz2@nsa.gov](mailto:jmfitz2@nsa.gov))

# QUESTIONS?

# Forward. Thinking.
